SUDAIS KHAN

sudais8075@gmail.com | https://www.linkedin.com/in/sudaiskhan733/ | https://github.com/SUdaiskhanDeveloper1

I'm a frontend developer specializing in building dynamic, responsive, and user-friendly web applications using React,Next.js, HTML, CSS, and JavaScript. Skilled in state management, API integration, and modern UI frameworks, with handson experience in Firebase for authentication, real-time databases.

SKILLS

- **Languages**: JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Technologies**: Next.js, React.js, APIs
- **Tools & Others:** Git/GitHub,Jira, Agile, Scalable Architectures, UI/UX

PROFESSIONAL EXPERIENCE

WeatherWalay - Frontend Web Developer   June 2025 - Present

- Implemented secure and scalable REST API integrations in React and Next.js, using Axios, reusable service hooks, and optimized request handling to ensure fast and reliable data communication.
- Developed key frontend modules for the NDMA Sindh system & PMD, enabling real-time, data-driven dashboards using Chakra UI and Ant Design with seamless backend API connectivity.
- The integration of GIS Polygon-based visualization and spatial data processing, enabling interactive mapping features. Collaborated with cross-functional teams to ensure seamless integration between frontend interfaces and backend services, delivering secure, scalable, and data-driven web experiences.
- Designed and optimized the Weatherwalay website section with improved layouts, responsive UI components, and enhanced visual consistency using Chakra UI and Ant Design, resulting in a cleaner, more user-friendly experience.
- Also Actively expanding backend development skills by learning how server-side architectures, REST APIs, authentication flows, and database integrations work, enabling better collaboration and a deeper understanding of full-stack application development

CodePackets - Frontend Web developer   April 2023- Oct 2023

- Developed and maintained responsive web pages using React to ensure smooth user experience.
- Gained hands-on experience in frontend development during the internship.
- Learned and applied modern web technologies, showing strong interest in continuous learning and skill growth.
- Developed and integrated Firebase Cloud Messaging (FCM) to enable real-time website notifications,enhancing user engagement and communication efficiency.
- Implemented and optimized Google AdSense and custom ad modules within the platform to generate revenue while maintaining responsive UI performance.

EDUCATION

MS Computer Science   **Sep 2024 - June 2026**
- University of Engineering and Technology,Mardan   CGPA: 3.54

BS Computer Science   **Sep 2019 - Sep 2023**
- University of Engineering and Technology,Mardan   CGPA: 3.23

CERTIFICATES

- **Intermediate NFTP Course:** The Complete web developer course (NFTP) (2021)
- **Frontend Web Development**:Complete React Developer Internship (Codepackets 2023)
